 an
 airfield was located 4 or 5 km south of Knyashpogost (6240 N/5055 E).
 Prior to 27 September 1953, aircraft were seen taking off and landing
 in that direction. Only biplanes were observed which circled over the
 woody area. No parachute jumps were seen.

 Comment. Knyashpogost airfield is known to be located about
 550 km southeast of Arkhangelsk. This is the first information on
 air activity over the field. This report indicates, however, that the
 airfield is only of minor importance.
